HISTORIC OLD MISSION CHURCH
ISLETA INDIAN PUEBLO

12 Miles South of Albuquerque, New Mexico

This pueblo is one of the oldest and largest in America -- and a striking feature is the old church of San Antonio de Isleta. It is easily distinguished by the two immense bell towers which is thought to have been built sometime between 1615 - 1621.

The mission sanctuary and altars are very beautifully decorated with many historic paintings and statues.
